Work Experience

Contract Backend Web Developer
TrantonLLC 1/2020-2/2020

Worked as a short term contract backend web developer. I worked with express, mongo, and typescript to build company infrastructure

Coding Coach
The Coder School 2/2021-present

Currently coaching students in python and basic programming concepts

Projects

Portfolio
https://github.com/Evan-Nishi/personal-site-v2

Designed, built and deployed my personal portfolio and assets from scratch using nextjs and typescript.

`Nextjs` `React` `Netlify` `CSS` `Typescript`

Ghym
https://github.com/neelr/ghym

Helped my partner plan out and make Ghym, a p2p cloud network for shared computing. Was made at Hack Merced and won best moonshot and best use of mongodb prizes.

`Socketio` `Expressjs` `Mongoose` `Javascript`

Spotify LED Matrix |Work in Progress|
https://github.com/Evan-Nishi/spotify-panel-site

Currently building an application that interfaces with the spotify api and an led matrix.

`Nextjs` `Python` `Typescript`

Education

Diablo Valley College
2019-2022

Associates degree, computer science
